

## Core Values and RESET Patriots

### Five Core Values that Every Government Official Must Follow

March 25, 2018

---

RESET America is about electing people who put the interests of the nation above their own. To this end, we endorse any candidate for office (from President to Water Commissioner) who shares and adopts these values:

#### 1. Put other People's Interests and Sustainable Policies First

- ★ I will put the interests of the people of this nation and the world above my own.
- ★ I will not become a lobbyist after I leave office or use my influence for personal gain at the expense of the American people.
- ★ I will consider the long-term implications in every decision that I make.

#### 2. Recognize the Urgency of the Problems and Focus on Solutions

- ★ I will promote and foster a non-political, friendly, and collaborative environment. I will not be distracted by trivial issues and debates.
- ★ I understand that there is an urgency to address the issues facing our nation.
- ★ I will not be afraid to tackle serious issues that may weaken my popularity.
- ★ I will direct my attention towards implementing viable solutions that are available today. I will work to implement these solutions before time runs out.

#### 3. Cannot Lie, Exaggerate or Dodge Questions

- ★ I will speak honestly about our nations' current state of affairs. I will not refuse critical interviews or dodge questions.
- ★ I will present accurate estimates of economic, environmental, and social-impact projections.
- ★ I will be honest about my relationships with people and reveal the sources of my campaign contributions.

#### 4. Obey the Same Laws and Collect the Same Benefits

- ★ I will work to rescind laws that treat elected officials differently than the people I have sworn to represent and protect – this includes special perks such as the 2-day work week and unlimited health care.
- ★ I will support legislation that removes special treatment and makes elected officials superior to the people. The “government class,” should not have an easier life than the average American. (We know that this says the same thing as the statement above; we just like saying it.)
- ★ I will work to create a more level playing field in the campaign process. It is not fair that outsiders, who want to help, have an unfair advantage since incumbents have an entire staff paid for them (by our children!), plus, they continue to get paid while campaigning for their jobs even as the problems continue to get worse.

#### 5. Cannot be a Member of the Democratic or Republican Parties

- ★ I will not have any affiliation with the Democrats or the Republicans. The 2-parties are more concerned with political gain than addressing these issues.
- ★ I will not worry about being publicly attacked in the media because I know that I must make tough choices before these problems get worse.
- ★ I will not let politics enter the political system.

**Admittedly, Jingo is a candidate for President. However, if you do not agree with his specific platform or ideas, we strongly recommend, no... we urge you, to support and vote for other candidates who commit to these values.**

### **For All Candidates: What does it mean to be a “RESET Patriot?”**

**If you're not a RESET Patriot, you're a RESET Tory!**

Over the next few months, we'll be pursuing shared endorsements from like-minded A2P candidates. These include candidates in all races, including: President, Senate, House Representatives, Governorships, Mayoral Elections, etc. The details on how to become a RESET Patriot will be published before the end of March 2007.

If you share these RESET principles, then you may include the RESET America logo prominently on your website along with a link to RESET America. In return, we'll endorse your organization or candidacy on our website and printed materials. You'll also have access to all multi-media recorded at events by the RESET America Team.

We will be accepting RESET Patriot requests after our official launch at FreedomFest in Las Vegas, July 5-7, 2007.

### **Message to Current Politicians**

We (apprehensively) admit that there are individuals in government, serving as Democrats and Republicans, who truly put the interests of the nation above their own. Although they are few in number (very few in number), we cannot dismiss the participation of these concerned individuals... nor would we want to.

Therefore, we will endorse any existing Legislator who abandons their current political affiliation. Now, there is no question that as this movement gains momentum, and the support for Democrats and Republicans wanes, many will pledge to support these principles solely to stay in office.

**For this reason, winning this upcoming election is not enough. For us to take control of our government and solve these problems faced by our kids, we must continue to be actively involved in the political process.**
