CALLING ON ALL CITIZENS of the UNITED STATES OF AMERICA

It has never been so obvious. Our nation's constitution is out of date. It was created in a different time, with different ideas, challenges and threats.

In 1780, there were 13 colonies, parties (factions) were considered dangerous, and there was no social media, no gerrymandering, no lobbyists, no herd mentality and no threats from foreign governments.

Congressional approval ratings are below 10%, yet re-election rates are over 90%. So, why doesn't supply equal demand? Why aren't there alternatives to the 2-party system? Simple, career politicians, lobbyists and special interest groups rig elections for their benefit.

When a building cannot be repaired, it must be knocked down and replaced with something new. Ben Franklin said, "Change can only come from one direction, from outside the system." Amazon was not created by Sears, E*TRADE not by Merrill Lynch, the iPhone not by AT&T – and Pornhub was not created by Playboy.

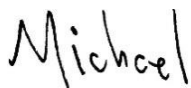

Our forefathers gave us (the people) the power to change the system. There are many viable options, but it starts with you. Read our [Principles](#). Take our [Quiz](#).
