

Our 5 Year Plan

RESET America is a 5-year plan. Even though we are very confident in our abilities, we do not realistically expect to be elected to the Presidency in 2008. However, this is not to say that we don't have big plans.

Jingoian for President is not a typical 3rd party campaign. We have a serious organization with a comprehensive plan managed by people who have success at accomplishing large projects. We truly believe that we will ignite the imagination of all Americans and win 5-7 percent of the popular vote. We also believe that we can win the delegates from the State of Oregon.

Jingoian plans to use this momentum to attract qualified Libertarian candidates for the House and Senate in 2010. There are numerous, well-qualified individuals who would like to serve in Congress. But, due to our corrupt political environment, government only attracts a minority of the general population. Therefore, it is imperative that we succeed so that these talented individuals will be encouraged to participate.

My Commitment to Run again in 2012

90% of the time and money that we've invested thus far has been in starting this movement. If we sought the nomination again, then we would be able to launch our message 2 years sooner. If you trust me with your nomination for '08, then I promise to continue to fight at the same level of commitment throughout 2012 for Freedom and Liberty. I also promise to assist future candidates with their campaigns. There is a lack of experienced candidates in the party who are available to assist persons interested in running for office. We all need to do our part to assist our future candidates.

During the next administration, our nation's problems will continue to get worse.

In the meantime, the Democrats and Republicans will continue to point fingers, avoid blame and create policies that benefit themselves over those they swore to protect. They steal from our kids, while they spend all their time fundraising and running for reelection.

As of today, the Congressional approval rating is 14% - the lowest in US history. We must end this destructive 2-party system and only vote for Independent and 3rd Party Candidates.

Remember:

- ★ **Any Vote for a Democrat or a Republican is a Wasted Vote**
- ★ **And the Lesser of 2 Evils is Still Evil**

From here, who knows what is possible. As the election approaches in November, the political scene will eventually become even more vile and contemptible. The problems will continue to get worse while Congress avoids dealing with these issues in favor of fundraising and campaigning. By then, people will be searching for an alternative. What they will find in us is a real plan to save our nation and planet before viable solutions disappear forever.

I am Michael Jingoian and this is what I am committed to achieving for our country, our freedom, and our future.

With any luck, 2012 will also bring us a new Congress. This way, not only will we be able to address the "attackable" issues, but we can address all our serious problems.

By replacing the Democrats and Republicans, we can truly "reset" our government.

We need to RESET Government Now

The Urgency to Change

The threats faced by our children are FAR WORSE than we can possibly imagine!

1. Fortunately, there are VALID SOLUTIONS to these problems many costing very little to implement.
2. Unfortunately, Politicians don't want to see change occur. The situation is the way it is because our "Representatives" PROFIT by the status quo. The ONLY way we can CHANGE THE SYSTEM is to eliminate both parties NOW.

This message is not Liberal or Conservative. It will enroll EVERY organization and individual who wants to save our great nation.

We need to hold ourselves accountable and stop blaming the Politicians who are just looking out for themselves. We need to take back our government and be an example for the rest of the world to follow.

The Status Quo

The Democrats and Republicans also have a plan - but their plan is a bit different. Their plan is to sellout our liberties and freedoms for campaign contributions.

Are we going to let the Democrats and Republicans continue to destroy America? The threats facing our nation are increasing in number and getting worse. No one disagrees that the 2-party system is destroying our nation. We have compiled a list of our most serious problems on our website. Although these problems are numerous and getting worse, there are:

- ★ Problems that we don't know about yet
- ★ Problems being hidden from us
- ★ The compound effect of these problems
- ★ New problems as a result of their Interconnectedness

We cannot expect to solve these problems with the same people who created them. The status-quo is the status-quo for a reason. If the President and the existing Congress really wanted to honestly address these issues, they could. The system is broken and needs to be "reset" (not "fixed," but transformed).

What you get with the RESET America Team

Real Change

New Priorities
"Real" Balance of Power
True Example of Democracy

Executive Branch (President)

Policies in the Best Interest of our Nation

Legislative Branch

A Representative Congress consisting of Talented and Concerned Citizens

Judicial Branch

Slowly Eliminate the Harmful Effects of Politics in the Judicial System

What you get with the Democrats and Republicans

Status Quo

1. Afraid to tackle tough issues - only address "distraction issues."
2. Only offer and pass band-aide solutions and fell good legislation.
3. Would rather see a program fail than see their opponents win.
4. Flip-flop on issues for political gain while ignoring facts & data.
5. Fail to consider the long-term ramifications of their policies.
6. Won't support a valid idea from the other party.
7. Lie outright about data, budget projections and situations.
8. Lie and manipulate news and the media.
9. Use their positions for personal gain.
10. Give misleading and confusing names to legislation.
11. Are too afraid to change their mind or admit they were wrong.
12. Live in a separate class that is out-of-touch with voters.
13. Sell out to corporate interests for campaign contributions.
14. Manipulate election laws and have destroyed our election process.

Executive Branch (President)

Administration and Policy not based in Reality

Legislative Branch

Complicit Congress only concerned with Fundraising and Campaigning

Judicial Branch

Becoming increasingly Corrupt and Biased due to the Divisive 2 Party System

Uniting ALL Independents around our Common Goals First

We plan to enroll ALL concerned Americans who feel betrayed by the Democrats and Republicans. Our agenda appeals to ALL Americans, not just Libertarians. By focusing on our shared goals first (including increasing Ballot Access), we plan to use our momentum to attract legitimate Libertarian candidates for the House and Senate for 2010 and 2012.

The threats facing our Nation are great. The solutions are real. We MUST unite all enraged citizens around our common goals first... then with influence in Congress, we can pursue the other items on our agenda.
