## AngelVision Named 120<sup>th</sup> Fastest Growing Private Company in the US

(Portland, OR) The September 2007 issue of Inc. Magazine named Portland Company AngelVision Technologies as the 120<sup>th</sup> fastest growing company in America. AngelVision's 1,440 percent growth (since 2003) made it Oregon's second fastest growing company in Oregon.

"This came as a great honor, but not as a great surprise. The growth at AngelVision has been remarkable since we founded the company," said Michael Jingoian, founder and CEO of AngelVision. Jingoian is also the leading non-2 party candidate for President of the United States. He is a Libertarian candidate and his campaign website is [www.ResetAmerica.com](http://www.ResetAmerica.com).

AngelVision applies a unique 'holistic management philosophy.' Jingoian states: "We started AngelVision on very different principles than any previous company. We don't consider how we 'should' do things, but rather, what is the 'best' way to get things done.

They only produce one product, Impact Movies. This way, they create efficiencies that allow them to charge a fraction of the cost compared to typical multimedia production. Impact Movies are quickly gaining recognition as the easiest way for companies to broadcast messages to a prospects, customers, investors or employees. Impact Movies are well written and engaging Internet videos that present a compelling message based on the AngelVision Solution Selling Model. The product has found a niche in the advertising world for companies with limited advertising budgets and a need to produce results. They are primarily used to generate sales but can also be used for product training, education, and recruitment.

AngelVision is an eco-friendly company proud to offer a paperless advertising tool that doesn't further deplete our natural resources. With a focus on sustainability, the company doesn't outsource outside the U.S. and remains dedicated to helping the small business owner compete in a demanding marketplace.

In just the last two years, Jingoian and AngelVision has been honored with over 35 regional and national awards for management, innovation and marketing including the 2007 American Business 'Stevie Award' for Best Interactive Media Company in the US for Business & Government. Other awards include:

Winner	2007	Five Telly Awards for Best Internet / Online Commercial
Winner	2007	Five Blingy Awards for Excellence in Marketing
Winner	2007	Two Summit International Marketing Awards
Winner	2007	Three Internet Advertising Awards
Winner	2006	InnoTech Innovation of the Year Award
Winner	2006	The American Marketing Assoc. MAX Award (1st Place for Excellence in Marketing)
Winner	2006	Two Telly Awards for Interactive Marketing
Recipient	2006	Pinnacle Award for Outstanding Mentoring of Fellow Professionals

AngelVision's growth is nearly unprecedented for a new company: a fact that caught the attention of Inc. Magazine. The company has reported sales growth of at least 176 percent for the sixth consecutive year. "Our consistent growth is directly due to our fine tuned process. Impact Movies deliver our clients' message so it gets heard and more importantly, understood," says Jeff Otis, General Manager. "Plain and simple, it works. Much of our growth is from repeat business from our existing clients."

Otis predicts more growth in the future for AngelVision as companies struggle to find effective marketing tools that reach their target audience. "This July we celebrated our 1,000<sup>th</sup> client. We are very grateful to work with such a wide variety of clients in just about every industry imaginable and we love hearing the success stories. It's really a testament to the cohesiveness of our team," concluded Otis.

Otis reports that the company is on pace to increase sales by 200 percent in 2007. Michael Jingoian believes the continued success and recent recognition is due to following his original mission. Jingoian says, "We are dedicated to offering an environmentally safe product that doesn't pollute the earth or waste natural resources as well as offering an incredible marketing tool that a small business can use for years... oh... and have some fun along the way."

AngelVision Technologies produces Impact Movies which are a sales and marketing tool designed to help companies put their most compelling message in front of their prospective clients. They can be used over 20 ways and translated into 72 languages. You can learn more about AngelVision and view a sample Impact Movie at [www.ImpactMovies.com](http://www.ImpactMovies.com).
